

# WE CREATE THE SPACE TO LEARN AND GROW

Furnware is a place where space is examined, tested talked about to transform it into a space that truly inspires learning.

Getting back to our core, what is Furnware? Firstly we are supporters, committed to New Zealand schools and to contributing to the outcomes and achievement of goals.

Furnware are listeners; we spend time with you and your teachers, understanding what your goals are for your school and the methodology you follow to impart these goals on your students. We then go back, tell your story to our colleagues, and work with you to create spaces that helps and supports your students learn and grow.

Talk to us. We are more than a furniture company. We can help you achieve.
